BEVERAGE DISPENSERS FOR PROFESSIONALS

ENGLISH

MORE FLAVOR IN ONE TOUCH!

Kreatek Srl presents the revolutionary generation of automatic cold drink dispensers, featuring a modern and elegant design and cutting-edge Made in Italy technology.

MADE IN ITALY

Kreatek is a 100% Italian company that has been present in the HO.RE.CA. market for over 10 years, always paying particular attention to the BREAKFAST sector and its critical aspects.

INNOVATION, EFFICIENCY AND QUALITY.

The experience of the Kreatek team has led to the development of a new generation of dispensers: 'KIKI, KEILA & KEEN JUICE'—our patented system for dispensing juice and cold, natural, or sparkling microfiltered water from a single unit. Ideal for various applications, from hotel breakfasts and bars to home use.

Our 'Regular Mix' system is designed to perfectly mix and enhance all types of juice concentrates, even those with a high percentage of fruit and pulp, while maintaining consistent temperatures under high usage conditions.

K-JUICE: The high-quality dispensing and reduced maintenance needs make our products the ideal solution.
